SKILLS

- **Languages:** Python, JavaScript, C, C++
- **Technologies:** HTML, CSS
- **Databases/Tools:** DBMS, MongoDB, Git, GitHub
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability, Persistence

PROJECTS

SRS Document on Food Delivery App | Academic

April 2026 - May 2026

- Prepared a comprehensive Software Requirements Specification (SRS) defining the scope, objectives, users, and core requirements of a food delivery application.
- Documented functional and non-functional requirements covering user interactions, application features, performance, security, and usability.
- Defined key system workflows for major user activities such as browsing food items, placing orders, and managing the delivery process.
- Structured system requirements and user interactions to provide a clear reference for application design, development

Automated Mobile Phone Rotation Stand | Arduino & IoT Project

Dec 2025

- Developed an Arduino-based automated rotation stand to support monitoring during online examinations.
- Integrated Arduino, motor, and mobile-phone holder to enable controlled rotation of the student's phone on examiner/invigilator command.
- Programmed the system using Arduino IDE for motor control and rotation functionality.
- Utilized Blynk for remote control/command communication with the hardware.
- Designed the prototype as a practical solution for remote examination monitoring and supervision.

EXTRACURRICULAR

Community Development Project (CDP) | Lovely Professional University

Jun 2026 - Jul 2026

- Contributed 30 hours to a community development initiative focused on teaching and engaging young students.
- Conducted Python programming sessions to introduce students to fundamental programming concepts and problem solving.
- Participated in cyber awareness, environmental awareness, and safety awareness activities for the community.
- Developed communication, mentoring, and teamwork skills through direct interaction with students and community members.

CERTIFICATE

- Introduction to Artificial Intelligence | **Infosys** Mar 2026
- JavaScript Essentials | **Cisco** Feb 2026
- Codecarvan 3.0 | **DSO** Nov 2025
- Effective Time Management | **Tech_Veda** Oct 2025

ACHIEVEMENTS

- Solved **100+ coding problems on Different Coding Platforms**, strengthening problem-solving and programming skills.
- Mathematics Olympiad – 3rd Rank (All over School).

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.44 Aug 2025 - Present
- **Army Public School , Chandimandir** Chandimandir, Haryana
Higher Secondary Education; Percentage: 92.8% April 2024 - Mar 2025
- **Army Public School , Lucknow** Lucknow, Uttar Pradesh
Secondary Education; Percentage: 96% April 2022 - Mar 2023
